DOCKETED BY

RE: DOCKET W-01521A-09-0121

DECISION NO: 72585

Sue Juan Water Company
10570 South Nogales Hwy.
Tucson, AZ 85706-0000

Dear Mr. Bozzo,

The City of Benson on behalf of the Sue Juan Water Company would like to request a time extension of 6 months of the requirement to submit copies of the ADWR Notice of Well Capping of the two Sue Juan's Water Wells. The City has completed a lot of work to the site since July 1, 2011 when funding became available including the abatement of the hazard material in the fluoride removal system and the removal and disposal of all surface tanks, pumps and piping. To date the submersible pumps have been removed and the City is scheduling a contractor to video inspect the wells so that the most appropriate method of capping can be submitted to ADWR for their approval. At this time we do not know what kind of time frame that it will take to get this approval. Because of state budget constraints we have noticed a longer time period from other state agency to gain approvals. Once we receive approval of the method we will proceed with the capping and submit the required documentation to ADWR o to get the notice on well Capping and forward it to ACC docket Control.

If you have any questions please contact me at (520) 720-6325.

Sincerely,

Bradley J. Hamilton, P.E.
Director of Public Works/City Engineer
